Ladies All admire glossy, luxuriant tresses, and many of them spend much time and money upon curious French hair oils, or home made oleaginous compounds, with complex and occult names, striving to improve their hair Yet the secret is a simple one. What grease will not effect, nature will. Diseases of the hair and scalp as much need treatment as any other disease, and that preparation is best which, innocuous in itself, will best nourish the hair bulbs and afford sustenance to the roots of the hair. This is claimed for head from scurf and dandruff, and will cause the hair to spring forth from bald scalps. It is elegantly perfumed, cleanly to use, and is altogether a very desirable toilet article. For sale by all druggists. Apply "Barrett's" and look young.

Facts for the Ladies. I purchased a Wheeler & Wilson Sewing-Machine about ten years ago, and while dearning to use it. without instruction, broke one needle; after that, for more than nine years, I had the machine in almost daily use, persons in the use of the machine, without breaking a needle. My machine has never working upon fabrics of the most delicate texture, as well as upon men's and boys' clothes of the heaviest material. I have made garments for the cradle, the bridal, the hospital, and the funeral. Entering into every vicissitude of life, my machine has become as it were a part of my being.

It was a very happy thought in some one at the Elgin Watch Factory to name their Ladies'watch the "Lady Eigin." We venthe ladies. In other words, a man of sense, of taste, and a gentleman. For what lady would not prefer to carry an equisite time keeper like the "Lady Elgin," and with that name, to one with a trade mark of "Samuel Appleby & Co.," or something similar? We like the name "Lady Elgin," and, under-standing that the watch itself is the handstrongest and cheapest Ladies' watch yet made in this country, we predict for the Elgin Company an immense demand

COOPER'S WELLS. - This healthy summer resort, the public will be pleased to earn, is to opened for the summer. We had heard that the place was abandoned, and that invalids would not again have the benefit of its health-restoring water. We are at the Wells, preparing the rooms for the reception of guests, and that Mrs. McCowan. of Raymond, will have charge of the household department. Under their management the Wells will be a pleacant place for visitors. There is no better point in the country for the investment of capital than Cooper's Wells. Chemical analysis and the experience of hundreds of invalids attest the value of the water. The location is delightful, cessible, and surrounded by a fine country, abounding in the best society. The old ommodations should be extended to more owuld be an investment that could not fail

This was between Hunter, the "lynx-eye," and Shoup. the "Senator." Hunter was the challenging party and was in the ring awaiting the arrival of his man for several hours, whom previous engagements prevented from arriving. The second occurred on Thursday morning, and in order that history may be properly preserved, we republish the following from Friday's edition of THE CLARI-

The Senator was first upon the ground, unattended, thereby displaying his contempt for "bottle holder" or "second."

Manning soon followed, giving his adversary no time to decline on account of previous engagements, and without the preliminary hand-shaking, customary on such occasions quietly "went to work" handing the "Senator" a good right-hander, on the "fly-trap," splitting his lip considerably .-First blood for Manning. The principals in this were Pierce the "Panola Giant" and Coggeshall, the "Street car conductor." Both men were in excellent condition considering informed that Mr. John C. From the Vallonian. The Meeting of the Survisors of

the 15th Regiment.

One week from to-day the anticipated meeting of the survivors of the veteran 15th Mississippi Regiment, as announced, will come off at Winona. We can well imagine the pleasureable emotions that must fill the and file, after so many long years. How deing to Him, who has spared them for the reunion of the moiety of their members, while the great majority of their comrades are sleeping the martyr's sleep of death. How surely roust the sympathetic tear course down those manly checks, as they recount the deeds of heroic daring of their fallen companions, or recall to mind their own mpressions, as their rank man fell to rise no

We may expect at that meeting. We may expect at that meeting, Gen. Weithall, Gen. Brantly, Col. Binford, Mrj. Prewett, Maj. Terry, Capt. Gage, Capt. Collins, Capt. Woods, Capt. Drummou, Capt. Market, Wittey, Collins, Craig, Koap, Trib-ble, and other officers and men, who may claim the honor of being survivors of that regiment. But we will not expect to meet here a Gen. Scott Statham, a Col. Michael Farrell, a Capt. R. A. Bankhead, a Capt. Frank M. Aldridge, a Capt. Jas T. Smith, a Capt. H. H. Potter, a Lieut. Thos. Allen, Lieut. Mourton, Lieut. Martin, Lieut. Schular, Lieut Montgomery, or the long lines of brave heroes, who though equally honored, were less fortunate than those assembled.—

It will be a meeting of in erest and pleasure but at the same time it will be one, mingled with sad and melancholy reflections. In reference to the business objects of this meeting of the survivors of the 15th reginent, viz: to consider the "ways and means" for erecting a monument, or monuments, to the memory of, or to place permanent tomb stones at the graves of the honored tomb stones at the graves of the honored dead of the regiment, we have only to say at present, that we will leave to those brave men, the adoption of their own plans to ac-complish the ends desired. We only urge our appeal that something be done now.— If we cannot do as much as our hearts would incline us to do, let us still do what

our purses will now permit.
